

# My Five Senses

*Made By:* \_\_\_\_\_

Please read me this book and help me match the correct body part and the page it corresponds to.

I use my eyes to see and look at many things. I can look in the mirror to see if I am clean and neat.

All my senses help me do many wonderful things. I thank Hashem for giving me such marvelous senses and I try my best to do many Mitzvos with my five senses.

With my hands I can feel many things. I can feel things that are soft or hard. Rough or smooth or bumpy.

With my ears I can hear and listen to many things. I listen to the bells jingling such a happy tune.

With my nose I can smell many things. I smell the sweet aroma of cinnamon and the strong scent of pepper.

With my mouth I can taste many things. I can taste foods that are sweet like apples, sour like pickles, salty like chips and bitter.
